SUMMARY

Dynamic Frontend Developer and Full-Stack Software Engineer with a robust skill set in React.js, Node.js, and MongoDB, complemented by experience in creative problem-solving and time management. Proven ability to design and develop web applications while collaborating effectively with stakeholders to meet project requirements. Adept at utilizing modern development tools such as Figma, Webpack, and GitHub to deliver high-quality software solutions.

SKILLS

Figma - Express.js - React.js - Node.js - NPM - Webpack - GitHub - Postman - MongoDB - Creative Problem Solving - Time Management - BEM - Full-Stack Development - Javascript - RESTAPI

EXPERIENCE

Franchise Owner | Zenshi Sushi (Advanced Fresh Concepts)   Feb 2024 - Present

AFC Sushi is a grab-and-go franchise offering fresh, high-quality sushi daily, with a focus on efficiency, great service, and growth.

- Increased sales by 30% in the first year through targeted marketing and community engagement.
- Reduced food waste by 25% by implementing inventory management and portion control training.
- Boosted repeat business by 40% by enhancing customer service and creating a welcoming atmosphere.
- Optimized daily operations, improving efficiency and reducing costs.
- Led a successful franchise launch, ensuring strong brand presence and growth.

Material Handler | Ulta Beauty   Oct 2022 - Dec 2022

Ulta Beauty is a leading beauty retailer, offering cosmetics, skincare, and haircare products. As a Material Handler, I contributed to efficient warehouse operations by ensuring timely stock movement and inventory management.

- Organized over 1,000 products daily, achieving 99% inventory accuracy.
- Streamlined replenishment processes for efficient stock management.
- Accurately picked and prepared 100+ customer orders per shift.
- Achieved 98% fulfillment efficiency through process optimization.
- Collaborated with team members to maintain smooth operations.

Warehouse Associate | Amazon Fulfillment Centre and Service Provider   Jan 2022 - Jun 2022

Amazon Fulfillment Centre ensures fast, accurate order processing through inventory management, package sorting, and shipping.

- Processed and scanned 1,500+ packages per shift, ensuring 99.5% sorting and inventory accuracy.
- Picked, packed, and shipped 200+ customer orders daily, consistently meeting strict fulfillment deadlines.
- Conducted quality assurance (QA) checks, identifying and resolving packaging and labeling errors.
- Ensured compliance with warehouse safety standards, maintaining a clean and organized workspace.
- Collaborated with team members, improving workflow efficiency and reducing processing times.

PROJECTS

News Explorer

- Optimized API integrations for 40% faster news updates, leading to a 25% increase in user satisfaction.
- Enhanced responsive design, reducing bounce rates by 50% and increasing session duration from 2 to 5+ minutes.

WTWR (What to Wear)

- Built interactive React.js interfaces for weather-based outfit recommendations, image uploads, and account management.
- Developed a secure backend with Node.js, Express.js, MongoDB, and Weather API integration, ensuring scalability and data security.

EDUCATION

Software Engineering Bootcamp | TripleTen   Apr 2024 - Feb 2025

- Completed an intensive Software Engineering program, gaining hands-on experience in frontend and backend development.
- Developed real-world projects using React, Node.js, and MongoDB, preparing for a career as a developer.
- Mastered full-stack development through hands-on projects, focusing on building scalable and secure applications.
